OFFICIAL COURT REPORTER

UNITED STATES DISTRICT COURT

ROOM 8054 - U. S. COURT HOUSE

PHILADELPHIA 7, PA.

IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF PENNSYLVANIA

UNITED STATES OF AMERICA :
 :
 vs. :
 :
 HARRY GOLD :

Philadelphia, Pa., June 12, 1950

Before HONORABLE JAMES P. McGRANERY, Judge.

PRESENT: GERALD A. GLEESON, ESQ.,
United States Attorney.

JOHN D. M. HAMILTON, ESQ.,
and AUGUSTUS S. BALLARD, ESQ.,
representing Harry Gold.

THE COURT: Mr. Hamilton.

MR. HAMILTON: Your Honor.

THE COURT: Will you come to the bar of the Court, Mr. Hamilton.

Do you have the copy of the indictment, Mr. Gleeson?

MR. GLEESON: Yes, sir.

THE COURT: Has a copy been furnished to Mr. Hamilton or to Mr. Gold?

MR. GLEESON: That I do not know, sir. I can, of course, furnish it to them; however, I will have to run off mimeographed copies.

I received a copy this morning, only one; therefore, I am not in a position to give Mr. Hamilton a copy, although immediately after this hearing I can have a copy made up in my own office.

THE COURT: Could you inform him now of its contents?

MR. GLEESON: I could let Mr. Hamilton have the certified copy.

MR. HAMILTON: Apparently, there are four pages, if Your Honor please. I do not know that it is necessary to try to make a real study at this time. I would not ask Your Honor's indulgence for that purpose. Although I have not seen the indictment until this moment.

In any event, I do not know how the District Attorney intends to proceed, except as I have talked with him, but I mean officially in this Court I do not know. If it is a matter of the question of the preliminary hearing, we are ready and willing to waive examination.

THE COURT: Could we await that, Mr. Hamilton? Bring the defendant to the bar of the Court.

(The defendant was brought to the bar of the Court.)

THE COURT: Mr. Gold, you have been advised of the charge made by the Government of the United States against you?

MR. GOLD: Yes, sir, I have.

THE COURT: The record will show that Mr. John D. M. Hamilton, Esq., is appearing as counsel for Mr. Gold.

As you know, the Court has appointed Mr. Hamilton to represent you. Are you satisfied with Mr. Hamilton as your counsel?

MR. GOLD: Yes, I am.

THE COURT: And you are aware that under our Constitution you need not make any statement, but if you do make a statement, that that statement may be used against you?

MR. GOLD: Yes, I am aware of that.

THE COURT: You will not be required to plead here.

Mr. Gleeson now has the certified copy of the formal indictment, and it is intended to be a removal proceeding -- is that the purpose, Mr. Gleeson?

MR. GLEESON: That is the purpose, sir.

THE COURT: You will prove the indictment.

MR. GLEESON: I shall indeed.

May it please the Court, I wish to offer in evidence the certified copy of a bill of indictment found in the United States District Court for the Eastern District of New York, against one Harry Gold, John Doe, alias "John" and Richard Roe, alias "Sam", said indictment naming three defendants. It is certified to by Percy G. B. Gilkes, Clerk of the United States District Court for the Eastern District of New York, and it is signed by the deputy clerk.

I first offer this in evidence, Mr. Hamilton.

MR. HAMILTON: To which there is no objection, if Your Honor please.

THE COURT: Do you have a person here now who appeared before the Grand Jury in the Eastern District of New York?

MR. GLEESON: Yes, sir, I do.

Mr. Miller, will you take the stand, please.

T. SCOTT MILLER, JR., having been duly sworn,
was examined and testified as follows:

DIRECT EXAMINATION

MR. GLEESON: May it please the Court, before addressing any questions to this witness, I believe I am correct in saying, Mr. Hamilton, that no mileage questions as to the distance of the place of prosecution and the place of arrest are being raised in this case, and that it is stipulated by counsel that this is a removal hearing under the appropriate federal rules of criminal procedure, which are set forth under 40(b), Subsections 1, 2, 3 and 4; is that a correct statement, Mr. Hamilton:

MR. HAMILTON: That is quite correct, Your Honor.

BY MR. GLEESON:

Q Mr. Miller, what is your position?

A I am a special agent of the Federal Bureau of Investigation.

Q How long have you been employed in that capacity?

A Since October of 1940.

Q I show you a certified copy of an indictment found in the United States District Court for the Eastern District of New York against one Harry Gold, one John Doe, alias "John", and one Richard Roe, alias "Sam". I ask you to examine that. If you have already examined it, would you advise us?

A Yes, I have seen this.

Q Did you testify before the Grand Jury in the United States District Court for the Eastern District of New York that found this indictment against the defendant named Harry Gold and the other defendants?

A I did.

Q When did you so testify?

A On June 9, 1950.

Q In your testimony before the Grand Jury -- do not tell us what you said, because the only purpose of calling you is for identification; in your testimony before the Grand Jury on that occasion, the Grand Jury that found this indictment against Harry Gold and the other two named defendants, did you testify concerning the Harry Gold named in that indictment?

A I did.

Q Is that Harry Gold named in that indictment in this court room?

A He is.

Q Would you point him out to His Honor?

A He is the man sitting between Mr. Hamilton and Mr. Ballard at the defendant's counsel table.

Q And you know him to be the same man against whom you testified before the Grand Jury in New York that found this indictment?

A I do.

MR. GLEESON: Cross-examine.

MR. HAMILTON: If Your Honor please, there is no question of identity, and there is, therefore, no cross-examination.

MR. GLEESON: You may retire from the stand.

MR. GLEESON: Would Your Honor give me your indulgence for one moment.

I have already offered in evidence, sir, a certified copy of the indictment.

Mr. Hamilton, I am going to offer some other papers, if you wish to look at them before I offer them.

MR. HAMILTON: Have them identified.

MR. GLEESON: Mark this for identification as Government's Exhibit 1, and then I will ask you to mark the other papers that I am going to offer with consecutive numbers, 2, 3 and 4, as the case may be.

(The indictment was marked Government's Exhibit 1.)

MR. GLEESON: I offer in evidence, sir, the original bench warrant issued on the indictment that has already been introduced in evidence against one Harry Gold. I ask, sir, that I may have put into the record a copy of that bench warrant, without objection of counsel, so that that may be part of the

MR. HAMILTON: There is no objection.

MR. GLEESON: I wish to turn the original bench warrant over to the United States Marshal.

MR. HAMILTON: There is no objection neither to the exhibit as such nor as to the substitution of the copy.

(Copy of bench warrant was marked Government's Exhibit 2.)

MR. GLEESON: I wish the stenographer to note that I have turned the original bench warrant over to the United States Marshal.

I think it also expedient, sir, that I offer in evidence the original warrant on which the original arrest was made, and I ask that after it has been copied into the record it be returned to me, so that I can return it to Mr. Miller, and he may return it to the United States Commissioner in New York that issued it.

THE COURT: Very well.

MR. HAMILTON: There is no objection either to the exhibit or to the disposal of it suggested by the District Attorney.

(Original warrant was marked Government's Exhibit 3.)

MR. GLEESON: I also think I should perfect the record by offering a copy of the complaint on which the

I take it, Mr. Stenographer, you are marking these with consecutive numbers as Government's Exhibits?

MR. HAMILTON: I have seen it and there is no objection.

(Copy of complaint was marked Government's Exhibit 4.)

MR. GLEESON: Having presented the exhibits and the evidence of identity, sir, the Government rests.

MR. HAMILTON: The defendant has no matters to bring before the Court.

In connection with the proceedings which have just been held, I do ask the indulgence of the Court to address myself to the Court on another matter, when the Government has completely finished this matter.

MR. GLEESON: Your Honor, if the defense has nothing to present to the Court in the nature of evidence, then I move that a warrant of removal be issued for this man, for his removal to answer the charges laid in the indictment in the United States District Court for the Eastern District of New York.

MR. HAMILTON: At this point, if I may ask the Court's indulgence, I should like to address a few remarks to Your Honor.

THE COURT: You certainly may, Mr. Hamilton.

MR. HAMILTON: If Your Honor please, in connection with the showing which the District Attorney has just made in behalf of the Government, I admitted without objection a bench warrant issuing from the Eastern District of New York.

By the last remarks which Mr. Gleeson has made it is apparent that there is a further step to be taken in this case before there can be actual physical removal of the defendant.

We are proceeding, as Mr. Gleeson has said, under Rule 40, Section b, and the subparagraphs thereof, and a part of one of the subparagraphs is b3, which provides, if it appears from the Commissioner's report or from the evidence adduced before the Judge that sufficient ground has been shown for ordering the removal of the defendant, the Judge shall issue a warrant of removal to the district where the prosecution is pending.

I should like to say to Your Honor that a search of the rules and the statutes does not reflect that this has to be an instantaneous proceeding.

With the background of my appearance in this case, as Your Honor knows from the proceedings which have been held this morning in this court room, I have not as yet been furnished with a copy of the indictment.

If the indictment follows, as I presume it does, the original complaint upon which the defendant was arrested, it charges a most reprehensible crime, and exacts severe penalties.

Under those circumstances it seems to me that I am not infringing upon an orderly procedure nor am I asking for more than might be expected, in the discretion of Your Honor, that we might have some time before Your Honor's warrant issues. It will not be convenient, not in the sense that I am not willing to go, but actually convenient for me to continue the examination which has been going on between Mr. Gold, Mr. Ballard, my associate, and myself. As Your Honor well knows, there are no funds available for expenses in this case. I think it is not asking too much if the opportunity of further examination should be permitted within the jurisdiction of this Court.

I should like also to say to Your Honor that I am not talking entirely with regard to the facts which go to make up the charge. Your Honor can envision the future proceedings which involve the character, the reputation, and the background of this defendant. Irrespective of where the charges are laid, the character and the background of this defendant, if it becomes a matter of importance, and I am sure it will, can only be developed here in the city in which he lived, and for that reason, too, I ask

Your Honor.

Finally, Your Honor having been in a peculiar position in connection with the adoption of the Criminal Rules of the United States, having had the honor of being an assistant United States Attorney General, and having had the experience of the bench itself, appreciates the fact that under Rule 20, if it should become advisable, and I do not prejudge my client in making that statement, irrespective of what has been said -- if it should become advisable that a plea of guilty is to be entered, under Rule 20 the plea may be entered and sentence may be made either in the court where the defendant is held or in the court where the indictment is laid. That, of course, is dependent upon the consent of the United States District Courts of the two districts involved. I do not know, not having even seen the indictment, that that is the course that will be followed; there are indications that it may be, but in any event, as I understand the purpose of Rule 20, it was that no man should be required to suffer the indignities of being carted back and forth, at least, that is one of the basic reasons, and if the defendant here were to be taken at this time to Brooklyn, the very essence of that rule would be violated and harm would be done, and there is, as I have tried to indicate, the practical objection of an inability to continue the examination in the fairness to which this defendant is entitled; therefore, I am asking Your Honor that we do have the indulgence of the court in the issuance of the

district.

THE COURT: Mr. Hamilton, the Court is quite aware that you have assumed the burden of the defense here at my request, and at no small personal sacrifice to yourself. One of the things that prompted me to appoint you was because of your well known patriotism. It was not questioned. And your position at the bar is such that no one would question your word or your motives, and in this particular case, although there is tremendous public interest, the request that you make is made with a view to giving the defendant the intelligent representation that you are capable of giving him. Of course, it is a reasonable request, and, unless the Government strenuously opposes it, I shall certainly comply.

I am aware of the need for the opportunity of examining the indictment, and, principally, the opportunity of your further conferences with the defendant himself. I am aware of the time that you have already given to it and the time that you will be required to give to it in the future, and it would greatly handicap you if you were required to shuttle back and forth from Brooklyn to Philadelphia. It would hamper largely any intelligent representation which you might make for the defendant. I think that is a statement that comes from a studied observation on my part, and I will comply with your request.

MR. HAMILTON: I thank you, Your Honor.

THE COURT: You have no objection, do you, Mr. Gleeson?

MR. GLEESON: Well, of course, the question as to the time when Your Honor will sign the warrant of removal, if such is signed, is a question directed to the exercise of a judicial function. Having established the requisite evidence, my purpose is to move the Court for a warrant of removal, which I have already done.

Since the time when you shall sign, and if you shall sign it, is a question directed to your inherent judicial power, I do not think I have any right to comment on that at all.

I do think that I should say this with respect to the other suggestion by Mr. Hamilton, and when I say "suggestion" I mean the other subject of discussion, which is the question of the invocation of Rule 20, with respect to the disposition of the case in this district in the event of a guilty plea; of course, as both Mr. Hamilton and Your Honor well recognize, that is a matter that must have the consent of the United States Attorney in the Eastern District of New York, Mr. Keogh, and is a matter that must have my consent. Of course, I could not at this moment speak for Mr. Keogh at all, and I think it would be premature to state my own position. I do not think I should state my position until the defendant and counsel have determined just what their course of action shall be. It is to date in the

contemplative stage, I understand.

MR. HAMILTON: Surely. I did not intend at all to press the District Attorney to take a position on that.

MR. GLEESON: So I feel on that matter I should reserve the statement of my position until the defense has definitely ascertained its own position.

THE COURT: Under the circumstances, I will hold the defendant Harry Gold under the bail heretofore fixed in the amount of \$100,000, pending disposition by the Court on the subject before the Court at this time, namely, removal proceedings.

I think that will cover the situation.

MR. HAMILTON: That is all, Your Honor.

MR. GLEESON: While I hesitate to even make this suggestion, because I know defense counsel has a very great burden -- the charge is most grave and he has a great deal of preparatory work to do, regardless of what his client ultimately does, whether it is a guilty plea or a not guilty plea, or whatever it may be, but I do think the Court should indicate some time limit on this question of removal. I think that is a fair request for the Government to make.

THE COURT: That would be putting a brake on Mr. Hamilton, in whom I have full confidence. That I would not do.

MR. HAMILTON: May I say, Your Honor, that I will not delay unduly in pressing forward with this examination.

THE COURT: I am sure of that.

MR. GLEASON: Very good.

THE COURT: That is all.

EASTERN DISTRICT OF NEW YORK, ss:

Before me, the undersigned, a United States Commissioner in and for the Eastern District of New York, on this 23rd day of May, 1950, personally appeared JOHN M. COLLINS, Special Agent, Federal Bureau of Investigation, who first being duly sworn, deposes and says:

That from on or about January 1, 1944, and continuously thereafter up to and including the date hereof in the Eastern District of New York, and within the jurisdiction of this court, HARRY GOLD, and "JOHN" DOE, the defendants herein, did in time of war unlawfully, wilfully, knowingly, and feloniously, conspire, confederate, and agree among themselves and with divers other persons to the complainant unknown to violate Subsection (a) of Section 32 of Title 50, United States Code, in that they did conspire, confederate, and agree that the defendant HARRY GOLD would obtain and receive from one EMIL JULIUS KLAUS FUCHE documents, writings, sketches, notes, and information relating to the national defense and with intent and reason to believe that it was to be used to the injury of the United States and

to the advantage of a foreign nation, to wit, the Union of Soviet Socialist Republics, would communicate, deliver, transmit, and attempt to communicate, deliver, and transmit the said documents, writings, sketches, notes, and information relating to the national defense to the defendant "JOHN" DOE, a representative, officer, agent, and employee of a foreign government, to wit, the Union of Soviet Socialist Republics, and to divers other persons to the complainant unknown, who were persons not entitled to receive the said documents, writings, sketches, notes, and information

That in pursuance of said unlawful conspiracy, confederation and agreement, and to effect the objects and purposes thereof, the the defendants HARRY GOLD and "JOHN" DOE, during the month of September, 1945, did meet and confer together in the vicinity of Jackson Heights, Long Island, in the Eastern District of New York.

Contrary to the form of the statute in such case made and provided and against the peace and dignity of the United States of America (50 USC 34).

INFORMATION FOR ELIGIBLES

DESCRIPTION OF APPOINTMENTS

All appointments will be probational or temporary appointments. Those which are for periods specifically limited to 1 year or less will be considered temporary; those for a longer period than 1 year will be designated as probational. Probational appointments provide such valuable privileges as inclusion under the system of retirement and disability benefits provided by the Civil Service Retirement Act and eligibility for transfer and promotion.

For persons appointed for a period of more than 1 year, the first year of service shall be a probationary period, satisfactory completion of which shall be considered part of the examination.

APPOINTMENTS ARE SUBJECT TO THESE REQUIREMENTS

1. A physical examination is required of every person selected for appointment. Eligibles are cautioned not to resign from any position now held until definite instructions to report for duty have actually been received, usually only after an examination has been made and the medical certificate approved.

2. All appointments will be subject to loyalty investigation, including fingerprinting, and the investigation may include inquiry into qualifications, suitability, and fitness for the position and to a verification of the statements made in the application.

3. Whenever there are already two or more members of a family in the classified service, no other member of that family is eligible for appointment in that service unless he is entitled to veteran preference. The term "family," as used in section 9 of the Civil Service Act, refers to those who live under the same roof with the head of the family and form his fireside. When members of the family become heads of new establishments, they cease to be part of the father's family (26 Op. Atty. Gen. 303 of July 12, 1907). Eligibles are warned not to accept appointment contrary to this provision of the law. The word "family" is interpreted in a rather restricted sense, however, and eligibles are advised to submit all facts on the matter to the appointing officer who will determine whether this restriction is applicable.

4. For appointment of temporary duration (1 year or less) the provisions in paragraphs 1 and 3 do not apply.

5. Subject to certain statutory exceptions, no person accepting appointment to a position in the classified civil service may remain on any other Federal pay roll. With some exceptions, no person may hold any State, county, or municipal office while employed in the classified civil service. This prohibition does not apply to offices in certain municipalities adjacent to the District of Columbia.

OTHER INFORMATION

Suspension of eligibility.—When a person is unable to accept an appointment, he should request that his name be removed from the eligible register until he is again able to accept appointment. At any time while this register is still in use, his name may be replaced in its proper position upon request. Upon requesting restoration to the register, the eligible should be sure to specify the exact title of the examination and the exact rating received. If the conditions under which he will accept appointment have changed, he should report these new conditions. A person's name may also be removed from the eligible register if he fails to reply to official correspondence or indicates that he would be unwilling to accept a position.

Procedure in case of nonselection.—When a person replies to an official inquiry and states that he is available for the position if offered, he is considered with others who are also available. The appointing officer may select any one of the available eligibles furnished him to fill the vacancy. Ordinarily the person selected will be the only one notified. The names of those eligibles not selected will be restored to the eligible register, provided they are still available for appointment. The fact that they were not selected will not affect their eligibility for other positions.

Cost of transportation.—The person selected for a position must pay all transportation costs connected with reporting for duty. If he should subsequently fail to meet the requirements to which appointment is subject, or if his employment is terminated for any reason, he must pay for his return also.

The recent death of my mother has left my father all alone here in Philadelphia, and I am the only one remaining who can care for him. It would be out of question to attempt to move him to the Pittsburgh area—he is too old and also is too attached to our present home.

I very much dislike having to pass up the position which you have offered, inasmuch as it is exactly the type of work which appeals to me and which I am certain I can handle competently. Thank you for your consideration.

INFORMATION FOR APPLICANTS FOR FEDERAL EMPLOYMENT

1. Change of address.—You should report promptly any change of address to this office. Failure to do this may cause loss of appointment.

2. Suspension of application.—If at any time you are unable to accept appointment you should notify this office and request that your eligibility be suspended until you are again in a position to accept employment. At any time while the list on which your name appears is still in use, your eligibility may be restored upon request. If the conditions under which you will accept employment have changed, you should report these new conditions.

Your eligibility may be suspended if you fail to reply to official correspondence or indicate, in answer to such correspondence, that you are unwilling to accept a position but without giving reasons.

3. Willingness to accept a lower salary.—An eligible list established from an examination to fill a specific type of position at a stated salary may also be used for filling vacancies in related positions or at a lower salary. It is important, therefore, that you state the lowest salary you are willing to accept, in order that this office may know whether or not to furnish your name for consideration for positions which may be filled from the list on which your name appears. When you accept a probational appointment, your name is removed from the eligible list. Until your name is removed, your willingness to accept a lower salary will not affect your eligibility for positions of higher salary. Your name will not be certified for any position at a lower salary than that which you have specified.

by fertilized 6-27-88 reason with Gold
with a statement of explanation.

After my last talk with you - Bob and myself would discuss the case and try to remember things that may have slipped my mind.

① When you mentioned Red Star just my mind at the moment only recalled the fact that we used Red Star and attended it here in Philadelphia.

On our trip to Wilman, etc. etc. Dr. Gary (I believe it is Dr. J. L. Gary) I am completely sure says as to whether we met him at Heron Walk, or National or if we visited Red Star Place - Kansas. We all meeting Red Star but if they have a plant in Kansas or Peabody the chances are we did -

Now I recall Dr. Gary, we thought he knew us and appeared in our conversation. He said he was coming East in the not too distant future and I invited him to make a survey of our plans - that he did (letters about this should be on file at the Sugar House) when he saw the condition of the distillery and found it unsatisfactory he recommended Red Star just until we could get our own yeast machines. 6/27/50
Morrill E. Dougherty

(2) At the Franklin Institute -

I recall the one of the things we looked up dealt with a methacrylate resin and methods of manufacture - this was for Brothman (and I didn't think anything of it as I believed and still believe Brothman were interested in Plastics as an artificial hair wave).

(I believe Harry did get the auto photostat.)

Incidentally from things that Harry said, I believe Brothman did some work for a Stanton Laboratory here in Phila to manufacture a hair wave solution.

(3) Meek and Company -

When we got into the vitamin or the distilling we used to buy some vitamin C from Meek & Co. and the man who called on us at that time was a Mr. ^{now} ~~operator~~ ^{McKessing} ~~Robbins~~ ^{in New York} and he arranged for Harry and I to go up to the Meek Patent Railway, which we did (I can give you dates but as I don't Meek keep record of visitors) we spent some time with a ~~Mr~~ Dr. Unna - It was 6/27/30
Monell E. Dougherty

A one day trip - no doubt I could not recall the
when we talked or I had mentioned about going to
March about a year.

I believe I told you at some time. I don't know
others who interviewed me - I may be wrong but I
have been Snyder?

④ You mentioned to me about the fact that
Harry took courses at Columbia University -

I never once heard him mention Columbia
that he was taking courses there.

I did know that after he went to the Phila.
he took some courses at P.C.P. which he
did not know -
Phila College of Pharmacy
43 S. 4th St. Philadelphia

⑤ Dot said it came out in newspaper accounts of the
case that he was questioned during the Bently
investigation - No one that knew him ever knew of
this - at least I didn't.

⑥ I believe toward the end of 1945 - He was very
much interested in it - we talked him about it - all

Morell E. Dougherty

I can recall is that her name was Marion (I believe she was gentle) I believe he met her through

Mrs. Birch (Dr. Birch's wife) another fellow -
I went with Harry & the girl to an Ice Hockey match
at the arena - the other fellow was a Clarence Hunt
who used to work for me at the mill.

As the Dry Ice Corp. 700 N. Delaware but I don't think he would know anything about the girl's name either but it was serious as he told me later he has been a

I don't for one minute believe this the man (I
told me he was a ...)

should know anything about the case but I only brought it out as I can't help laughing every once in a while when I recall Weylon asking me if he was there.

250

Only explanation I can recall is that
he said it may take ^{over} me longer to
get into another position and that this
would help me through - I believe
he made a loan for this and I acted
as Co-signer (this can be checked) -
I believe this is when I opened the Corn
Exchange Account which I still have
and keep my expense account in.

This is the type of things I was interested
in and what I spent most of my time
looking up at Franklin Institute.

Studied

Theo. yield of 2-3 Butanediol is 18.9%
per 34 lbs. dry starch.

Best operating results -

It is shown that 95% conversion of starch
to glucose can be accomplished (where relatively
low starch concentrations (10%) are used)

In the best lab. fermentation about 86% of the
fermented reducing sugar was converted to
butanediol - using 95 and 86% as the maxima
to be expected for glucose formation and butanediol
formation, respectively - a possible yield figure
of $(0.95 \times 0.86 \times 18.9) = 15.5$ pounds butanediol / lb. grain
(34 lbs. starch).
